

Virtual Development Environment

To simplify testing and quick start development, you may download preconfigured virtual machines. We provide images for KVM and VMWare environments.

- Location, Download size: ~ 1 GB, Extracted size: ~ 5 GB
- Memory requirements: 512 MB (required), 1 GB (recommended)
- User: *adei*, Password: *adei*, Administrator password: *adei*

Development

- ADEI installation: `/srv/www/htdocs/adei/`
- Updating to latest revision: `bzr pull`
 - ◆ Because unnecessary setups are removed, may complain about conflicts in *setups/* folder
- Compiling javascript code: `make`
 - ◆ Requires java
